

SPREADER BOOT IN LEATHER

The spreader boot is made of leather with a rubber cord edge providing a good protection to whatever the design of the spreader is. The inner side is lined with neoprene for a perfect fit. The boot is set with a long velcro strap to fit even wide spreaders. Just cut the velcro strap to a suitable length and mount the boot with the velcro pointing backwards. Four sizes.

Manufactured by Waterline Design.

- Easy to install with Velcro
- Fits all brands of rigs
- Leather = natural material
- Neoprene on the inside
- Protects both fore/main sail
- UV protected with leather

1. Measure width

2. Continuous

or Linked rig

FITTING TABLE
